

## Introducing the all-new Honda Accord. Move up to the new status sedan.

The 3.5 litre V6 i-VTEC engine delivers a class-leading 275ps and comes with Honda's revolutionary Variable Cylinder Management (VCM) technology. It's so intelligent it can switch between six, four and even three cylinders according to driving loads. This means it can achieve extraordinarily low emissions and high fuel efficiency while still giving you maximum horsepower. On the inside, it's bigger than it's ever been with room to comfortably seat five adults in absolute luxury. Also available with a 2.4 litre i-VTEC engine delivering 180ps or a 2.0 litre i-VTEC engine which delivers 156ps, the all-new Honda Accord comes with 5-speed automatic transmission as standard, optimising its overall performance and fuel efficiency. But above all, when you purchase a new Accord,

you'll become a member of the Honda Accord Advantage Program. This means you'll enjoy a comprehensive range of exclusive benefits, as well as total peace of mind knowing that your new Accord will always be in good hands. So it's no wonder that the all-new Honda Accord is indeed a real privilege to drive and own.
