

# “Racing improves the breed.”

– Soichiro Honda.

**CIVIC  
TYPE R**

**Honda was born from racing.  
And what we learn on the racetrack goes straight into the cars we make.**

When it comes to the Red ‘H’ emblem, only two vehicles qualify. One is a Honda Formula One race car, the other is a Civic Type R. It combines ultra-responsive steering, taut suspension, quick and precise gear shifting and aggressive brakes, with an i-VTEC high performance engine.
